Introduction

Interior design is all about artistic problem solving. For some, this comes naturally. For others it takes practice and observation. Observing rooms that have solved the design 'puzzle' and watching how space is aesthetically managed in them can be a huge learning experience. This is where this book can help you.

We have compiled a list of inspirational rooms created by some of the world's top designers and visualizers. The book has 250+ images of visually stunning rooms. You will find it hard to not get inspired by them!
